

GAZING INTO LANGUAGE

UNVEILING COGNITIVE PROCESSES WITH EYE-TRACKING

8:45 Welcome Coffee

9:15 Opening

9:30-10:30 Invited Keynote Prof. Kathy Conklin: 'Eye-tracking as a method to explore formulaic language'

10:30-11:00 Coffee Break

11:00-11:30 N. Denhovska (Univ. of Central Lancashire, Preston, UK): 'Implicit learning of a second language: an eye-tracking study'

11:30-12:00 P. Lorette (Univ. of Mannheim, Germany), T. Gorski (Univ. of Mannheim, Germany), H. Engemann (Univ. of Mannheim, Germany) & E. Soroli (Univ. Lille, France): 'Language and cognitive restructuring of the bilingual mind: categorical shift or dynamic reorganisation?'

12:00-13:30 Lunch break

13:30-13:45 O. Ivchenko & N. Grabar (Savoirs, Textes, Langage, Université de Lille, France): 'Quantifying Reading Patterns in Medical and General Texts with Eye-Tracking'

13:45-14:00 S. Kobylanskaya (LISN, France) & A. Propescu (Sorbonne Université, France): 'The use of eye movement and disfluencies for difficult word decoding by L2 speakers'

14:00-14:30 A. Richard B. (Praxiling, France) & M. Beaudoin (Lyon Neuroscience Research Center, France): 'Investigating speech rate and saccades in Cancer-Related Cognitive Impairment'

14:30-15:00 A. Saksida & E. Orzan (IRCCS Burlo Garofolo - Trieste, Italy): 'Asymmetric pupil response to speech and music in toddlers with cochlear implants'

15:00-15:30 Break

15:30-16:00 D. Abashidze, P. Mutani, M. Esebua & N. Tavadze (Leibniz-Zentrum Allgemeine Sprachwissenschaft, Germany): 'Morphosyntactic cues in anticipatory language processing: webcam-based vs. in-lab eye-tracking'

16:00-16:45 L. Willard (FR CNRS 2052 Sciences et Cultures du Visuel) - *title to be confirmed*

16:45 Closing remarks
